

Summary

UI/UX & Product Designer with an IT Engineering background, building design systems and enterprise SaaS interfaces for global product teams. I bridge system architecture and user experience — translating complex operational requirements into scalable, standards-driven interfaces for platforms spanning resource planning, logistics, IoT, and enterprise CRM. I own design end-to-end: information architecture, design tokens, high-fidelity prototyping, and technical hand-off, with a focus on consistency and dev-readiness. Registered IT Engineer and MBA candidate, grounded in both design craft and business context.

Skills

- **Design Systems & Product Architecture:** Design Tokens, Component Libraries, Cross-Platform Design Systems (Material 3, iOS HIG, shadcn), Auto-Layout, Design-to-Dev Handoff.
- **Enterprise UX & Research:** Information Architecture, Usability Testing, User Flows & Wireframing, Enterprise SaaS/CRM Design, Accessibility Standards.
- **Tools:** Figma (advanced), Webflow, Adobe XD, Illustrator, Photoshop.
- **Frontend Fluency:** HTML/CSS, Tailwind CSS, SCSS, JavaScript.
- **Cross-Functional Collaboration:** Agile/Sprint workflows, Jira, stakeholder alignment with Product & Engineering leads.

Qualities

- Balances multiple concurrent projects across design systems, enterprise SaaS, and rapid-turnaround work without losing attention to detail.
- Analytical and systems-oriented — approaching UI problems with an engineering lens, not just a visual one.
- Communicate confidently across design, product, and engineering functions, in both written documentation and live hand-off sessions.
- Adaptable across ambiguous, fast-changing enterprise requirements.

Experience

Mid UI/UX Designer — EKbana Solutions, Jwagal | Jan 2024 – Present

- Engineer and maintain a cross-platform Web and Mobile Design System with token-based variables benchmarked against Material 3, iOS 18, and shadcn, standardizing product consistency and accelerating dev handoff across company-wide builds.
- Architect end-to-end interface workflows and interactive prototypes for enterprise platforms including resource planning (RPM), logistics and IoT tracking (BirdSong), and custom CMS quote portals (Ashtec).
- Partner with Product Managers and Engineering Leads to turn business requirements into high-fidelity UI, reducing ambiguity during development.
- Lead design alignment and technical handoff sessions with front-end and mobile teams, improving implementation accuracy.

Product Designer — Aitrix Labs, Kathmandu | Mar 2025 – Apr 2025

- Spearheaded a complete UI/UX overhaul of Udaan V2.0, a mobile LMS, within a one-month timeline, modernizing its information architecture and navigation.
- Conducted usability evaluations to identify learning-flow friction points, then resolved them through high-fidelity prototypes built for accessibility.
- Established design guidelines and component standards for future app updates to build on.

Freelance Designer — SCSS Consulting | Mar 2025 – Apr 2025

- Delivered end-to-end UI design and full website revamps for enterprise clients, including the Cannabiz Elite compliance software ecosystem.
- Developed brand guidelines, pitch decks, and client documentation for executive stakeholders.

Product Designer — Globaly Hub | Dec 2022 – Dec 2023

- Designed user-centered UI/UX, sitemaps, and wireframes for enterprise CRM applications, including OHC Guide and Agentcis.
- Built reusable UI kits and published Figma community libraries used beyond internal projects.
- Partnered with product and engineering teams to turn user research into roadmaps and wireframe prototypes.

Associate UI/UX and Graphics Designer — Globaly Hub | Apr 2022 – Nov 2022

- Built and deployed responsive web platforms and landing pages using Webflow, HTML/CSS, and Tailwind CSS.
- Designed early-stage UI component kits and marketing collateral to keep branding consistent across the product.

Design Intern — Globaly Hub (Formerly IntroCept) | Dec 2021 – Apr 2022

- Mapped sitemaps, information architecture, and low-fidelity wireframes for early-stage web and mobile concepts.
- Worked with Product Managers to turn early user feedback into initial UI concepts.

Featured Projects

- **Udaan V2.0:** Redesigned the Udaan V2.0 LMS in 1 month, optimizing information architecture and interactive prototypes for better learner engagement. [View Case Study](#)
- **SCSS Consulting:** Website design revamp aligning with the brand guidelines. [View Case Study](#)
- **GlobalyHub Website:** Designed the GlobalyHub website from scratch to fully responsive implementing Design System, deployed website using Webflow. [View Site](#)
- **Agentcis:** Designed a component-based design system with defined variants, improving consistency across the product. [View Site](#)

Certificates

- | | |
|--|--|
| • Foundations of User Experience (UX) Design — Jun 2022 | Credential ID : R5JKTCWJFARF |
| • Start the UX Design Process: Empathize, Define and Ideate — Jul 2022 | Credential ID : QUMJGP9MUCES |
| • Build Wireframes and Low-Fidelity Prototypes — Aug 2022 | Credential ID : 9643NENPDM6J |
| • Conduct UX Research and Test Early Concepts — Sep 2022 | Credential ID : V3D9G84SHKTG |
| • Create High-Fidelity Designs and Prototypes in Figma — Oct 2022 | Credential ID : YRNQESVB83D7 |
| • Responsive Web Design in Adobe XD — Dec 2022 | Credential ID : JLCLUVGQ8CB7 |

Education

- **Master of Business Administration** — Herald College Kathmandu (Affiliated to University of Wolverhampton) | 2023–2025
- **Bachelor of Engineering in Information Technology** — Nepal College of Information Technology (Affiliated to Pokhara University) CGPA 3.07 | 2017–2022
